

QUICKFIRE

FIRESTARTERS

NEW
GENERATION

25
PCS

ODOURLESS | NON-HAZARDOUS
ENVIRONMENTALLY FRIENDLY

FOR BARBECUES & WOOD STOVES

For the safe and easy lighting of barbecues and wood stoves without giving off smoke or odours. Perfect for use in the home, when camping, or hiking.

Place 2-3 firestarters in or around the logs, coals, charcoals etc. and light the sealed firestarters. Firestarters will burn even if wet.

The foil is used as a wick, and lit in the corner.

Before placing food on the grill, the firestarter must be fully burned, and the charcoals must be covered with a layer of ash.

Barbecue-firestarters by EN 1860-3.

Unlimited durability.

Keep out of the reach of children.

Contains N-Paraffin
DIN EN 1860-3:2003(D)
